bohemian

ficonstone

Inspired by travelling and stories, the bohemian collection is a perfect combination of natural colors and crafts. These planters are made with an unique process; traditionally woven baskets are turned into strong planters by using ficonstone on the inside. Due to the natural composition of the material, some color and size variations may occur.

Within the bohemian collection, you can choose between three different looks, each with a different material on the outside that is ecologically responsible:

bamboo, seagrass and straw grass.

Bamboo

- Handmade and unique
- Strong inside because of the combination of fiberglass and cement
- Pot always remains in perfect shape because it is made of strong material
- Standard waterhole with plug and feet for the best waterdrainage
- Indoor and outdoor
